

Low Volatility Dividend Growth Strategy

About Griffin

Founded in 1995, Griffin Asset Management is an employee owned, SEC Registered Independent Investment Advisor based in New York City.

Investment Philosophy

While our investment strategies differ in approach, they all adhere to the same investment principles: invest for the long term, focus on quality, and keep emotion out of the security selection process. A dual mandate of building portfolios that balance return and risk are keys to long term success.

- Core Strategy
- US Large Cap-Centric
- Value-Oriented Philosophy
- 30-40 Holdings
- Cash Flow Driven
- Low Downside Volatility

Strategy Objective

The Low Volatility Dividend Growth Strategy seeks to invest in the stocks of dividend-paying companies with the expectation that their dividends will be raised over time on a consistent basis. Our intent is to earn an income stream that grows at least as fast as the rate of inflation, while maintaining a defensive stock sector allocation in order to limit the downside volatility to principal.

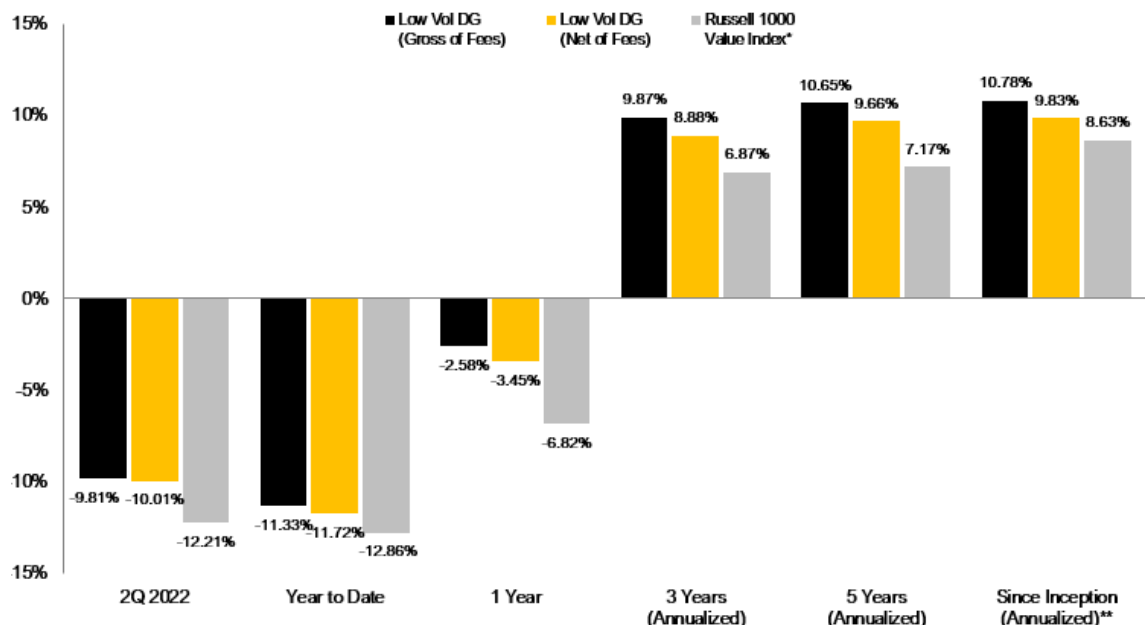

Strategy Emphasis

The primary emphasis is to increase cash flow. The Portfolio Manager utilizes a bottom-up, value-oriented approach to dividend growth equity investing. The Portfolio invests in companies that demonstrate:

- Culture Committed to Growing Dividend
- Sustainable Competitive Advantages
- Simple and Durable Business Models
- Strong Free Cash Flow Generation
- Consistently High Returns on Equity
- Discounted to Fair Valuations at Purchase
