Core Dividend Growth Strategy

About Griffin
Founded in 1995, our name, Griffin Asset Management was taken from the Greek mythological creature to signify our commitment to protect and guard our client's wealth. By combining strategies that have a proven history of long-term, risk adjusted returns with a relentless focus on our clients' needs we help provide financial certainty in an otherwise uncertain and unpredictable market environment.

Investment Philosophy
- Create and generate long-term wealth by partnering with clients to meet their diverse goals for the present and the future
- Invest in large and mid-capitalization dividend paying stocks that are conservatively financed and trading at a discount to our assessment of intrinsic value
- A disciplined approach to stock selection and portfolio construction with a focus on growing dividends, low P/E multiples, and strong cash flows
- Stock analysis focused on non-traditional valuation and quality metrics like free cash flow yield and return on invested capital
- Individual security selection with an objective decision-making process
- A transparent investment process that is dynamic in bear markets and always mindful of risk

Strategy Objective

The investment objective of Griffin's Dividend Growth Strategy is long-term capital appreciation and income. The Strategy invests primarily in large and mid-capitalization dividend paying stocks that are conservatively financed and trading at a discount to the investment managers' assessment of intrinsic value.

Strategy Emphasis

The primary emphasis is long term earnings growth. The Portfolio Manager utilizes a bottom-up, value-oriented approach to dividend growth equity investing. The Portfolio invests in companies that demonstrate:

- High Free Cash Flow Yield
- History of Growing Dividends
- Low Price to Earnings Ratio
